

PEVANOL

Hand cleansing lotion with PU abrasives

Properties

PEVANOL is a high-grade hand cleansing lotion that enables the removal of light to medium soiling.

PEVANOL can be used in all areas of industry.

PEVANOL cleanses deep into the pores and offers lasting skin protection and excellent refatting.

Composition

PEVANOL is based on renewable raw materials that are dermatologically and toxicologically safe.

PEVANOL contains a complex, synergetic surfactant system that removes soiling while being kind on the skin. High-grade natural fats enable effective refatting of the skin. The surfactants are biodegradable and fulfil the requirements of the OECD screening test.

PEVANOL contains high-grade, gentle synthetic abrasives that enhance the cleansing effect. These abrasives do not block waste pipes.

PEVANOL

PEVANOL is silicon-free.

PEVANOL is pH-neutral.

PEVANOL has been dermatologically tested.

PEVANOL is proven due to many years' use in practical application.

Application

Rub **PEVANOL** into the dirt and grease on the skin. Continue rubbing while adding a little water. Then rinse thoroughly.

Skin cleansing

Light soiling

Product description

Light green, viscous suspension with PU abrasives.

pH-value: 6.0 – 7.0

Density: 0.95 – 1.02 g/cm³ (20° C)

Statutory requirements

PEVANOL is subject to the German Cosmetics Ordinance (KVO) and the Foodstuffs and Commodities Act (LMBG). All cosmetics products in the **PEVA** range are manufactured in accordance with GMP (Good Manufacturing Practice) and are subject to microbial quality assurance checks.

Storage information

PEVANOL can be stored in closed original containers at room temperature for at least 24 months.

Skin care information

When working with noxious substances, a suitable skin protection agent should be applied before starting work (e.g. **PEVAPERIM** universal skin protection lotion). After finishing work, a suitable hand care agent should be rubbed into the skin regularly in order to aid regeneration (e.g. **PEVALIND** skin care lotion, rich in active ingredients).

Package sizes

- 1 l bottle
- 2 l soft bottle
- 2.2 l cartridge
- 10 l canister
