

Skin cleansing

Light soiling

PEVAPLUS

The gentle
skin cleansing lotion

PEVAPLUS

Properties

PEVAPLUS is extremely kind to the skin and gently removes light soiling.

PEVAPLUS is suitable for all-over body cleansing.

PEVAPLUS has a wide range of applications, e.g. in offices, administrative environments, doctor's surgeries, light warehouse and packaging activities and the food-processing industry.

Composition

PEVAPLUS is based on renewable raw materials that are dermatologically and toxicologically safe.

PEVAPLUS contains a complex, synergetic surfactant system that removes soiling while being kind on the skin. The surfactants are biodegradeable and fulfil the requirements of the OECD screening test.

PEVAPLUS contains a balanced revitalizing system that uses skin-friendly care substances to prevent defatting of the skin, particularly with frequent washing.

PEVAPLUS is a pearlescent skin cleansing lotion with a pleasant scent.

PEVAPLUS is silicon-free.

PEVAPLUS is pH-neutral.

PEVAPLUS has been dermatologically tested.

PEVAPLUS is proven due to many years' use in practical application.

Application

Make sure your skin is moist and then rub in *PEVAPLUS*. Then rinse your hands with water and dry.

Skin cleansing

Light soiling

Product description

White to pale yellow, pearlescent, slightly viscous lotion, scented and unscented.

pH-value: 5.5 – 6.5

Density: 0.95 – 1.05 g/cm³ (20° C)

Statutory requirements

PEVAPLUS is subject to the German Cosmetics Ordinance (KVO) and the Foodstuffs and Commodities Act (LMBG). All cosmetics products in the **PEVA** range are manufactured in accordance with GMP (Good Manufacturing Practice) and are subject to microbial quality assurance check.

Storage information

PEVAPLUS can be stored in closed original containers at room temperature for at least 24 months.

Skin care information

When working with noxious substances, a suitable skin protection agent should be applied before starting work (e.g. **PEVAPERIM** universal skin protection lotion). After finishing work, a suitable hand care agent should be rubbed into the skin regularly in order to aid regeneration (e.g. **PEVALIND** skin care lotion, rich in active ingredients).
